Borewell Pumps Business Knowledge Base for AI Chatbot

This document contains sample business knowledge data for a borewell pumps company. It can be used as a knowledge base for building a RAG-powered AI chatbot using LangChain, Gemini AI, and Pinecone.

Company Overview

We specialize in borewell drilling equipment, submersible pumps, agricultural water solutions, domestic water supply systems, and industrial pumping systems. Our services include installation, maintenance, pump replacement, motor servicing, and customer support.

Products

1. Submersible Pumps
2. Openwell Pumps
3. Monoblock Pumps
4. Borewell Motors
5. Control Panels
6. HDPE Pipes
7. PVC Pipes
8. Water Level Controllers
9. Solar Borewell Pumps

Common Customer Questions

• Which pump is suitable for 300 feet borewell?
• What HP motor is required for agricultural use?
• Which pump brand is best for home usage?
• How often should a borewell pump be serviced?
• Why is my submersible pump not lifting water?
• What causes low water pressure?

Installation Guidelines

• Check borewell depth before selecting the pump.
• Ensure proper voltage supply.
• Use correct cable size for deep borewells.
• Install dry-run protection to avoid motor damage.
• Use high-quality pipes and clamps.

Maintenance Tips

• Regularly inspect power supply connections.
• Clean filters every 3–6 months.
• Avoid running the motor without water.
• Monitor unusual noise or vibration.

• Schedule yearly servicing for longer lifespan.

Troubleshooting

Pump Not Starting: • Check power supply • Inspect capacitor • Verify motor condition Low Water Output: • Check water level • Inspect pipe leakage • Clean clogged impellers Frequent Tripping: • Overload issue • Voltage fluctuations • Motor overheating

Warranty & Service Policy

• Standard warranty: 1–2 years depending on product type.
• Installation charges are separate.
• On-site service available in selected regions.
• Spare parts available for major brands.

Pump Recommendation Table

Pump Type	Usage	Recommended Depth
Submersible Pump	Agriculture	100–1000 ft
Openwell Pump	Domestic	Up to 50 ft
Solar Pump	Remote Areas	100–500 ft
Monoblock Pump	Small Farms	Up to 80 ft
